Discover drawing as we take students on a journey that starts with a dot and travels in a myriad of directions creating shapes, objects, and figures in various compositions!

We start with the “ingredients of drawing” – what are the fundamental building blocks that make up everything we observe? How can we translate that into a realistic drawing? This course will teach just that. Learn how to break down a drawing or live observation to create a road map to draw the scene or object desired. We will also look at main lines, guide points, overlapping and intersecting lines, symmetry, shading, light source, illustration and more!

Students will receive a sketchbook with the course, too. We will create some visual arts projects utilizing our newly found skills as well as practice exercises throughout the course. Come join us on a drawing adventure designed to enhance your powers of observation and skills at drawing! And, as always, Dress for Mess!

Pack your bags and hop in the car with Smart with Art as we hit the open road exploring regions of the U.S. in Art!

We will drive down to the Grand Canyon to explore chalk pastels, then we will swing by some wacky roadside attractions that will be sure to pop off the page. Rock out with us when we drive through Nashville, home of America's country music and create a musically inspired marker collage, and watch out for snapping alligators in the everglades, when we create painted relief sculptures on canvas.

There is so much to create and explore around the U.S.A. with markers, watercolors, paint, collage, oil pastels, chalk, sculpture and more! Don't miss out on this creative journey from coast to coast! Join us this Fall to expand your artistic skills as we road Trip around the USA! And, as always, Dress for Mess!
